CONTROL VALVE

Should the control valve fail to function properly during the first **60 months** from date of manufacture, it will be repaired at the manufacturer's discretion. The valve can be removed by following the instructions outlined in the Maintenance and Service Manual and returning it freight prepaid to our location. Proper packaging is important to protect the valve from any damage. Any damage incurred in transit will not be covered by the warranty.

The control valve, which has every operating part in it, is guaranteed against all malfunction and defects, except for physical damage.

This warranty will not cover physical damage to the control valve or structural damage sustained as the result of fire or extreme heat of any origin, water pressure exceeding 125 PSI, freezing, or dropping, or any other abnormal impact on the conditioner either in handling or in shipping. Replacement or repair charges for such damage will be charged at current repair charges, above and beyond the guaranteed repair or replacement cost.

BRINETANK

Your brine container is warranted to the original purchaser for a period of five (5) years from the date of manufacture to be free of defects of workmanship or material if used with normal water conditioning chemicals in contact with the polyethylene material of which it is constructed. It is not warranted against penetration by sharp or pointed objects or against damage caused by excessive heat, freezing, thaw, misuse, neglect or mishandling.

Under this obligation we will be limited to replacing or repairing any defective container. This does not include consequential damages and supersedes any other warranty, expressed or implied. Transit charges are the responsibility of the dealer/owner.

MINERAL TANK

The fiberglass mineral tank is guaranteed for ten (10) years for all 6"- 13" diameter polyglass and polyester FRP vessels and five (5) years from date of manufacture for all remaining sizes to the original owner against rust, corrosion, bursting, or leaking, except as the result of extreme heat of any origin, freezing, water pressures exceeding 125 PSI, dropping or abnormal impact on the conditioner either in handling or shipping. If a tank fails, except for the above exceptions, it will be repaired or replaced free of charge, FOB factory, provided it has been returned to the factory with transportation charges prepaid.

Please notate the serial number of your component when contacting the manufacturer regarding warranty questions.

Charges incurred regarding actual labor to replace any warranted component are not the responsibility of Wood Bros. Ind.

*****WARRANTY IS VOID IF PRODUCT IS NOT INSTALLED BY A LICENSED PLUMBER*****
